NIMBUS CLOUD

RECOVERY SERVICE SCHEDULE

CONTRACT TITLE: Production Backup and Recovery Schedule
CONTRACT ID: AUR-2027-008
CONTRACT TYPE: vendor
EFFECTIVE DATE: 2027-01-20
PARTY A: Aurora Software Private Limited (the "Company")
PARTY B: Nimbus Cloud Private Limited (the "Counterparty")
GOVERNING LAW: India; forum as stated in the body

RECOVERY INSTRUCTION

Aurora purchases backup and recovery support from Nimbus for the same PROD-AUR environment used by RESIDENT-ONE. This separately priced schedule does not silently amend the hosting agreement.

1 RECOVERY SCOPE

1.1 Nimbus performs daily encrypted snapshots for PROD-AUR and maintains a 30-day retention window. Aurora verifies application consistency and supplies authorised recovery instructions. Backup storage is not a transfer of ownership of personal data.

2 RESTORE COMMITMENT

2.1 A valid priority-one recovery request must be completed within four hours of Nimbus receipt. Recovery requires the production infrastructure to be available. This schedule does not shorten the six-hour infrastructure restoration objective in AUR-2027-001; coordination remains required.

3 MONTHLY CHARGE AND CREDIT

3.1 The monthly fee is INR 40,000, including January, payable by Aurora in arrears by 17:00 IST on the tenth day of the following month. No late-payment rate is agreed. A distinct recovery request completed after the four-hour window earns Aurora a credit of 20% of the monthly fee, capped at INR 8,000 per calendar month across all requests. Claims are due within ten calendar days of completion and credited on the next invoice.

4 OPERATING PERIOD

4.1 The schedule runs from 2027-01-20 to 2027-12-15 without automatic renewal. Backups are retained for 30 calendar days after expiry solely for export, after which they are deleted unless lawful preservation is required. No post-expiry restoration promise is included.

5 DOCUMENTED FAILURE

5.1 Nimbus records request receipt, completion, environment and request ID. An incomplete request is promptly identified with the missing information. A completion email for the same request is not a second compensable incident. No agreed credit is payable merely because a future dependency gap is predicted.

6 STOPPING THE SERVICE

6.1 Either party may terminate for convenience on 30 calendar days notice or for material breach uncured after ten calendar days detailed notice. Nimbus provides an export in the original backup format within seven calendar days of exit; earned credits and unpaid invoices survive.

7 INFORMATION CONTROL

7.1 Nimbus acts only on Aurora's documented processing instructions, restricts access, encrypts backups and complies with applicable DPDP obligations. It notifies Aurora within 24 hours of a confirmed data incident. Personal data is not used for unrelated model training.

8 LIMITS AND INDEMNITIES

8.1 Each party indemnifies the other for third-party claims caused by its negligent disclosure of the other's confidential data, subject to notice and defence control. Ordinary aggregate liability is INR 480,000; fraud and deliberate misconduct are uncapped. Recovery credit offsets damages for the same loss.

9 CONFIDENCE AND SECRECY

9.1 Backup catalogues, keys and recovery procedures remain confidential for five years after exit. Encryption keys remain Aurora's property. Nimbus may disclose records only to authorised staff, bound advisers or as required by law.

10 CHANGE AND INTERRUPTION

10.1 Assignment requires consent. Force majeure requires notice within 24 hours, evidence and mitigation, and suspends only demonstrated affected duties. No exclusivity applies; Aurora may maintain an independent backup. Routine upstream maintenance is not automatically force majeure.

11 NOTICE AND ADJUDICATION

11.1 Indian law governs. Unresolved disputes after ten calendar days negotiation go to Bengaluru courts. Notices go to aurora-legal@aurora.example and legal@nimbus.example. Neither this schedule nor a recovery ticket extends the hosting term.

SCHEDULE A - BACKUP OPERATING CARD

Reference	Item	Agreed particulars
Row 1	Production environment	PROD-AUR
Row 2	Restore window	Within four hours / valid P1 request
Row 3	Missed-window credit	INR 8,000 maximum per month
Row 4	End of restore service	2027-12-15
