GOVERNING LAW: India; forum as stated in the body

PROJECT AUTHORISATION

Aurora engages Forge to integrate the AX9 firmware connector with RESIDENT-ONE. The parties use signed demonstration and acceptance records to control both delivery and milestone billing.

SCHEDULE A - MILESTONE REGISTER

Reference	Item	Agreed particulars
Row 1	M1 demonstration	2027-02-28 at 17:00 IST / INR 300,000
Row 2	M2 package	2027-04-30 at 17:00 IST / INR 300,000
Row 3	Acceptance signatory	Mira Sen / signed record required
Row 4	Project end	2027-05-31

1 DELIVERABLES

1.1 Forge produces the AX9 connector, source code and test report. Milestone M1 is a working demonstration due by 17:00 IST on 2027-02-28. Milestone M2 is a complete integration package due by 17:00 IST on 2027-04-30. Aurora controls scope changes through a signed variation.

2 ACCEPTANCE GATE

2.1 A milestone is accepted only when Mira Sen signs its acceptance record after the specified tests pass. A demonstration, delivery receipt, invoice or silence alone does not constitute acceptance. Aurora gives specific test failures within five calendar days of a submitted package.

3 MILESTONE MONEY

3.1 M1 and M2 each carry INR 300,000. Each amount is payable within 15 calendar days after both the signed acceptance and a valid milestone invoice have been received; count from the later date. No late-payment percentage is specified. An unaccepted milestone cannot become payable solely by passage of time after its invoice.

4 DEMONSTRATION DELAY

4.1 If M1 is not demonstrated by its deadline, Forge owes Aurora INR 1,500 for every calendar date from 2027-03-01 through the actual demonstration date inclusive, capped at INR 30,000. Demonstration delay and payment acceptance are different tests. M2 delay has no fixed daily charge; supported direct damages remain subject to clause 8.1.

5 PROJECT PERIOD

5.1 This SOW is effective on 2027-01-22 and continues until 2027-05-31 unless lawfully ended earlier. There is no automatic renewal. Accrued milestone fees, delay remedies, IP transfer and confidentiality survive the operating term.

6 CONVENIENCE NOTICE

6.1 Either party may terminate this SOW for convenience on 30 calendar days written notice. Aurora pays only accepted milestones and evidenced approved non-cancellable work, together capped at INR 600,000.

7 SPECIAL EXIT NOTICE

7.1 Notwithstanding the administrative exit process, a party ending this SOW for convenience shall give at least 60 calendar days written notice. No order of precedence resolves a difference between this requirement and clause 6.1. Material breach may be terminated after ten calendar days uncured following detailed notice.

8 WORK PRODUCT AND CLAIMS

8.1 Aurora owns project-specific deliverables on payment for the corresponding accepted milestone; Forge retains pre-existing tools and grants a perpetual embedded-use licence. Each party indemnifies the other for third-party IP claims arising from its own materials, with notice and defence control. Ordinary aggregate liability is INR 600,000; fraud and deliberate misconduct are uncapped.

9 PROTECTED ENGINEERING

9.1 Source code and business specifications remain confidential for three years after exit. Forge uses test data stripped of resident identifiers and complies with applicable data and employment law. Production data access needs Aurora's written approval.

10 TEAM AND DISRUPTION

10.1 Assignment requires prior written consent; approved subcontractors do not relieve Forge of performance responsibility. Force majeure requires notice within three calendar days, impact evidence and mitigation. Normal staffing issues do not excuse delivery. No exclusivity or employee non-compete applies.

11 DISPUTE LADDER

11.1 Indian law governs. Project managers negotiate for ten calendar days before escalation to senior representatives for ten further days, after which Bengaluru courts have exclusive jurisdiction. Notices go to aurora-legal@aurora.example and legal@forge.example. Neither party may silently select one of the inconsistent convenience notice periods.
